

## The 4 Seasons – A COMENIUS Project 2009-2011

# Autumn Newspaper

Autumn in Poland

"The 4 Seasons" is a COMENIUS project between students and teachers from different European schools.

Our project involves 7 schools from 6 different countries :

Tabasalu Gymnasium (Estonia), Publiczma Szkoła Podstawa in Opole (Poland), Instituto Compressivo Bettola (Italy), Ecole Primaire in Dudelange (Luxembourg), Ecole Bradfer in Bar-le-Duc (France), Grundschule Auf dem Fischerrück in Kaiserslautern (Germany), Grundschule Mehlingen (Germany).

The theme corresponds to the national programs of all the schools. It covers multiple domains and will be approached via literature, poetry, visual arts, history, science, geography and music. During the first year, we study Winter and Summer. During the second year, we study Spring and Autumn.

FELIX, the mascot is the "central thread". He accompanies and leads the children through the two project years. FELIX reports, together with the children, on the spot the other children from his experiences. Thus, FELIX becomes the identification figure of the project for the children and a symbol of "their" Europe.

# THE FOUR SEASONS – AUTUMN IN POLAND

## AUTUMN IN OPOLE

SEPTEMBER – September

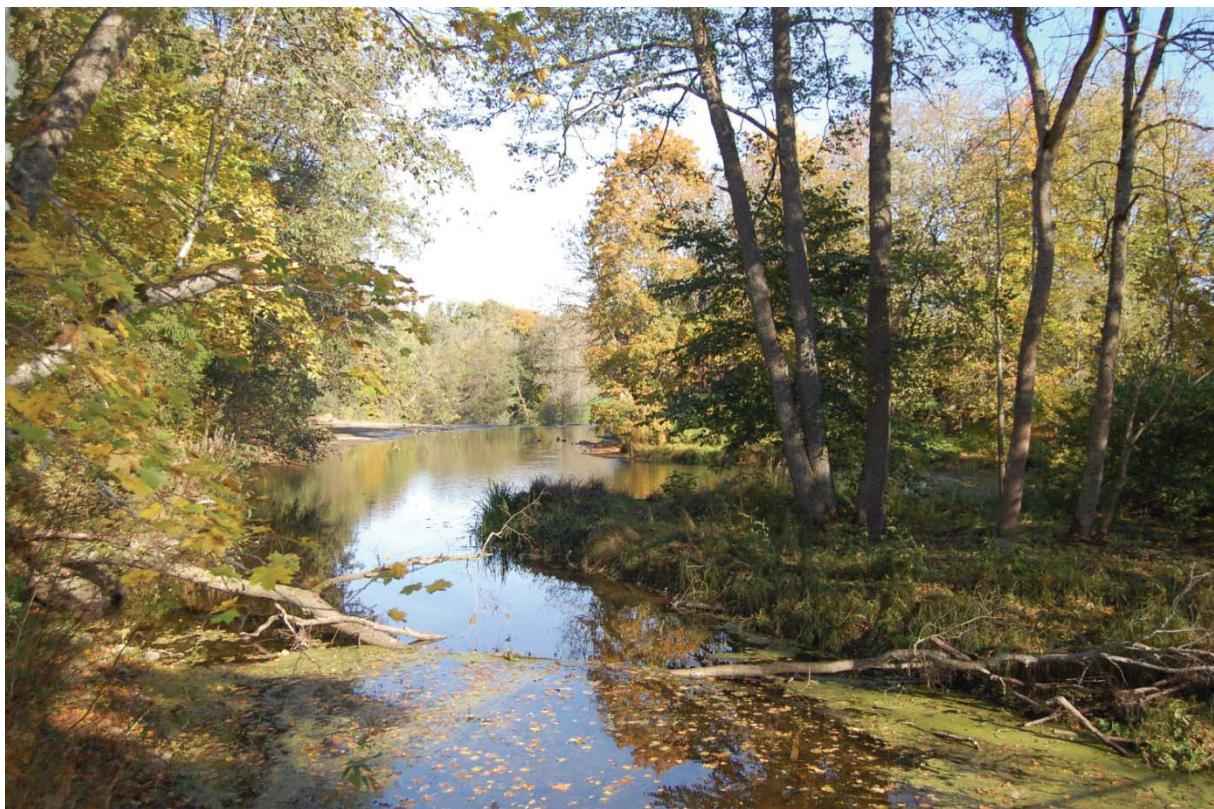

# AUTUMN – SÜGIS

OKTOOBER – October

Autumn is a chilly season.

NOVEMBER – November

The characteristics of autumn are: decreased temperature, rainy and snowy weather, as well as a thin sheet of ice on water bodies. The most distinguishing feature that characterizes autumn is the falling of tree-leaves.

Krista Savitsch

**Estonian proverb: AUTUMN SAYS: "I HAVE SEVEN TABLES WHERE TO EAT"**

## Exploring autumn

As a part of Comenius project „4 Seasons“ our 4<sup>th</sup> graders took a field trip to South-Estonia. We explored autumn in its many colours. We started to prepare for this trip already in September, since this was a new project. 19<sup>th</sup> September was the day our trip to the nature began. The first stop was in Tartu. From there we went to Mooste Manor where we found out the past and present of this place. The children visited very interesting Cat Show where people had gathered cat related items. We also took a long walk in Mooste Park. After that we headed to Piusa Caves. It was a great experience for children to mix different sand types and being in Piusa Caves. Our guide was the beautiful Estonian autumn. We spent our first beautiful autumn night at the Taevaskoja Retriet Centre. Since this was the first two-day trip for our class, children had a lot of fun in nature till late night.

The next day we visited picturesque Taevaskoja Ancient Valley. We spent some time at Emalätte (Mother's spring), which has healing powers. We also drank its water and put it on our eyes. Our next stop was Suur Munamägi (mountain). We climbed on top of the

observation tower and enjoyed the magnificent view of Estonia and its many colourful leaves. Then we had another small stop in Võru and it was time to head back to Tabasalu. The two days spent in South-Estonia were memorable and filled with many experiences.

Lea Netz

### Bread week.

Several exhibitions and all sorts of events involving bread were held during bread week.

First and second grade students went to the Museum of Harju County to bake their own bread.

There are many proverbs which teach us to honour and love bread: "Bread is older than we are.", "Do not dishonour bread, next time it will dishonour you.", "A dropped slice of bread weeps for

seven years." - What else does it speak of, than of the fact that bread has played an important role on the table and in the life of Estonians.

Lea Netz

## **Autumn's Birthday**

In autumn children are aware of healthy eating habits and nature gifts of their homeland. Nevertheless we begin our studies with questions why, when and what for are vegetables important. To raise children's interest and to understand what the colours of nature are, why is the colour of the soil black, where do the plants grow, we had several lessons outside the classroom. The pupils' interest grew day by day.

us. Children were amazed to admit that all the colours are present in nature. Answers to the questions why potatoes don't grow on the trees and why the plants don't grow their roots up in the air, were answered through methods of active study. The event was successful, children liked it very much and they hope to take part in event like this next year.

Kristine Laanisto

From 4.10-8.10.2010 we had a vegetable week in our school where children could present their one of a kind vegetables from their home garden. Every student had to talk about the way they got the gift of the nature. All fruits were unique and some even reminded of human faces.

Also there was an exhibition in school where everyone could take a look at the displayed vegetables. We observed the colours which nature had presented to

Lea Netz

### **Autumn Sports Day**

On the 4th of October 2010 Tabasalu Gymnasium held an outdoor sports day between classes 1 to 5. Classes competed in pendulum relay (each class had a team of twelve members, six boys and six girls) and each student also had three individual sports to go through (ball throw, cross-country running and 40 meter run). The children were excited and participated very actively. The sports day was favoured by a warm and sunny weather.

# Le journal de l'automne

Song

Pour chaque saison, les CM1A ont écrit un canon. Voici celui de l'automne :

**Autumn landscapes**

Après avoir étudié le tableau d'Alfred Sisley : « *Neige à Louveciennes* », nous avons réalisé un paysage d'automne à la manière d'Alfred Sisley.

Les CM1 A

Le 18 octobre, les petites sections sont allées à la découverte de la forêt d'automne. Les enfants ont pu l'explorer au travers des 5 sens avant de planter un gland et de chercher des champignons. La journée fut bien remplie et les enfants sont rentrés avec des souvenirs plein la tête.

**A stay in Beaulieu.**

Les 18 et 19 octobre, les moyennes sections ont passé deux jours à Beaulieu. Le premier jour, les enfants ont découvert les champignons en les récoltant puis en les triant. Ensuite, ils ont eu la chance de pouvoir faire du Land Art. Après une nuit calme et agréable, les enfants ont découvert la nature grâce à leurs 5 sens avant de planter des glands et de construire un moulage de champignons pour garder un souvenir de leur voyage.

# Le journal de l'automne

## Autumn Hand Made Tea Time

Le 22 octobre dernier, les CP se sont rendus à BONZEE pour découvrir le secret des plantes tinctoriales (une plante tinctoriale est une plante dont certaines parties servent à préparer des colorants et des teintures).

Ils ont réalisé de belles peintures avec du chou rouge ! Ensuite, ils sont allés cueillir des baies pour confectionner une délicieuse confiture. Ils ont fabriqué leur jus de pomme et fait des gâteaux aux noix. La journée s'est terminée par un grand goûter collectif.

## AUTUMN LEAF

La classe de CM1B a travaillé sur l'automne et nous avons choisi de mettre en avant une poésie: Feuille d'automne de Georges Hamel.

Devant ma porte les feuilles tombent  
Quel décor vraiment gracieux  
La douceur des couleurs d'automne  
Fait vibrer mon cœur et mes yeux

Avec cette saison je rêve  
J'ai un peu de mélancolie  
Les beaux dimanches d'été s'achèvent  
L'automne toujours change ma vie

Dernière randonnée dans la plaine  
Avant la venue des grands froids  
Déjà l'autre saison s'amène  
Le rideau se ferme une autre fois

Devant ma porte les feuilles tombent  
Quel décor vraiment gracieux  
La douceur des couleurs d'automne  
Fait vibrer mon cœur et mes yeux

Dans la nature le ruisseau chante  
Mais il se voit bien délaissé  
La fleur frileuse maintenant tremble  
L'oiseau s'en va se réchauffer

Devant ma porte les feuilles tombent  
Quel décor vraiment gracieux  
La douceur des couleurs d'automne  
Fait vibrer mon cœur et mes yeux

# Le journal de l'automne

## The Autumn museum

Après avoir découvert les champignons à travers des chansons, la classe de CE1 s'est amusée à collecter tous les plus beaux habits de l'automne.

## Land Art

La classe des CE2A est partie faire du Land Art dans le parc de la médiathèque. Nous avons ramassé tout ce que nous trouvions pour en faire des œuvres d'art éphémères... Prenez des marrons, des feuilles, des branches et voici ce que ça donne :

# Le journal de l'automne

## AUTUMN TREE

Les grandes sections ont réalisé « l'arbre fantastique des légumes » après tout un travail sur la différenciation fruits/légumes ainsi que les familles de légumes: légumes racines (carotte, radis...), tiges (poireau, céleri...), feuilles (salade, épinard...) et fruits (comme la tomate, le poivron...).

Le graphisme créatif :

## DIE SCHNEEKÖNIGIN

EIN MÄRCHEN VON HANS CHRISTIAN ANDERSEN

Eines Tages passierte dem Zauberlehrling ein Missgeschick. Als er mit dem Spiegel hoch durch die Luft flog, ließ er ihn plötzlich fallen. Der Spiegel zersprang in viele Millionen Glassplitter.

Der böse Zauberer rieb sich die Hände und lachte, bis ihm fast der Bauch platzte. Er freute sich, dass der Wind die Splitter in viele Länder und Städte trug bis hinein in die Stadt, in der Kai und Gerta lebten. Kai und Gerta waren die besten Freunde ....

Kai wurde von Splittern des Zauberspiegels getroffen.

Er war wie verwandelt. Er fand das Schöne nur noch hässlich und sein Herz erstarrte zu Eis.

Die geheimnisvolle Schneekönigin entführte Kai in ihr Schloss.

Gerda machte sich auf die Lüche nach ihrem Freund und traf dabei auf eine seltsame Blumenfrau.

# Herbst 2010

## DIE SCHNEEKÖNIGIN

NOVEMBER 2010

### Räubertag

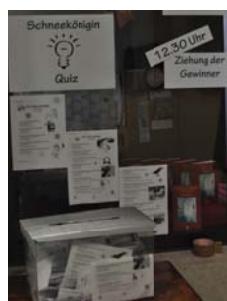

4a und 4b

Das freie Leben lieben wir  
bei Kräuterschnaps und Kräuterbier.  
Wir leben in den Tag hinein  
und kennen keine Sorgen.  
Wir tanzen um den Opferstein  
und keiner denkt an morgen

Die Tochter des Räuberhauptmannes beschützt Gerda.

Das Räubermaädchen beauftragt ihr Rentier,  
Gerda sicher nach Lappland zu bringen.

# Herbst 2010

NIKOLAUSFEIER

6. DEZEMBER 2010

## WAFFELN

### Zutaten

200g Butter  
175g Zucker  
6 Eier  
350g Mehl  
350ml Milch  
1 Päckchen Backpulver  
1 Prise Salz  
1 Päckchen Vanillezucker  
etwas Zitronensaft  
Puderzucker und Öl

Zuerst vermischten wir Mehl mit Salz und Backpulver.  
Dann rührten wir mit dem Schneebesen die Butter  
mit Eiern, Zucker und Vanillezucker schaumig.  
Danach rührten wir abwechselnd Mehl und Milch in die  
Buttermasse ein. Anschließend gaben wir einige Tropfen  
Zitronensaft dazu. Nun bestrichen wir das Waffeleisen  
mit Öl. Den Waffeleisen backten wir im heißen  
Waffeleisen einige Minuten lang. Zuletzt streuten wir  
Puderzucker darüber. Unsere Waffeln haben wir auch an  
die anderen Klassen verteilt. Die haben sich gefreut!

## Herbst/Autumn in Mehlingen

Jim Knopf Tag 08.11.2010

## We celebrate 50 years of Jim Knopf! Jim Knopf wird 50!

Jim Knopf Day 08/11/10

### Jim Button and Luke the Engine Driver

(original German title: Jim Knopf und Lukas der Lokomotivführer) is a German children fantasy novel written by Michael Ende, published in 1961, where it scored a tremendous success.

The story opens at a tiny island called Morrowland (original name: Lummerland), which has just enough space for a small palace, a train station and rails all around the island, a convenience store, a small house, a king, three subjects, a locomotive named Emma, and an engine driver by the name of Luke (Lukas). One day, the postman - who has to come by ship - drops off a package with a nearly illegible address with the names *Mrs. Krintuuth* and *Zorroulend*, and a large 13 on the back. After a futile search for the addressee all over the island, the people open the package - and find to their immense surprise a black baby inside. The baby is adopted by the islanders and is named Jim Button. Together with Luke and Emma Jim will have many adventures.....

# AUTUNNO-SI DORME!!!! AUTUMN: ITS SLEEPING TIME!!!!

La natura riposa: animali e vegetali riducono il loro lavoro al minimo necessario; il rigore dell'inverno che avanza li rende inoperosi. Ecco infatti alcuni animali cadere in un lungo sonno e così lasciar trascorrere i mesi più rigidi.

I graziosi abitatori del bosco dormono: dorme il riccio nella tana ben chiusa, coperta di foglie, scavata ai piedi dei grandi alberi; dorme il ghiro, dopo aver provveduto a riempire la sua tana di noci, di nocciole, di castagne; dorme lo scoiattolo spesso rintanato nel cavo di un castagno.

Vicino ai muri dormono pipistrelli e chiocciole: non si nutrono, respirano appena e non si muovono per serbare il calore al loro corpo. Negli orti, nei giardini, nei prati, nei boschi... sembra che tutto abbia cessato di vivere. La terra è fredda, poiché il sole non può giungere con la sua energia a riscaldarla sufficientemente e, mancando la luce, manca la vita. Non vi sono insetti che ronzano per l'aria: sono scomparse farfalle, api, calabroni, vespe.

Negli orti le verdure resistenti al freddo sono ricoperte di paglia: verze, sedano, insalata. Nei giardini nessun fiore; alberi spogli e legnosi, sembrano in attesa di una scure che, da un momento all'altro, venga a tagliarli.

Raccolta di ricerche e rielaborazione: classi 5°A - 5° B

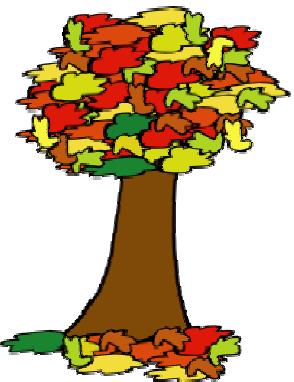

## AUTUNNO:LA SUA PACE AUTUMN: ITS PEACE

L'autunno allegro ama  
quando un fanciullo sorride  
felice e spensierato  
nel parco del suo tranquillo paese.

L'aria limpida  
purifica l'anima  
di chi non vuol bene  
e la vuole migliorare.  
Ogni cosa s'inchina  
dinanzi all'amore  
e gioiosamente  
l'invita  
a fermarsi.

I miei occhi osservano  
con tenerezza il mondo  
che si concilia  
perché è tornata l'armonia.

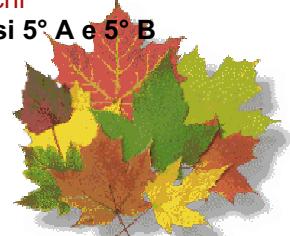

Classi 5° A e 5° B

## IL SOGNO DELL'AUTUNNO THE AUTUMN DREAM

L'autunno silenzioso sogna l'inverno  
quando di notte pensa alla neve  
che donerà tanti fiocchi leggeri.  
Gioiosamente giocherella  
la neve con il vento.  
Pensa al profumo intenso  
della primavera  
che regala tanta allegria.  
Immagina il risveglio  
degli animaletti silenziosi  
mentre corrono nei boschi

Classi 5° A e 5° B

# AUTUNNO A FARINI / AUTUMN IN FARINI

**MENÙ AUTUNNALE**

**INGREDIENTI**

**SPAGHETTI ALLE NOCI**

500 g. di spaghetti togliere la pellicina alle noci e tritarle finemente  
 300 g. di noci sgusciate mettere in uno tegame con l'olio e il latte.  
 2 dita di latte  
 5 cucchiai di olio  
 30 g. di grano grattugiato Mescolare bene finché si ottiene una salsa fluida. Cuocere gli spaghetti al dente e condire con la salsa e il grano.

**ARROSTO DI VITELLO ALLE NOCI**

1 Kg. di mozzarella di vitello Rosolare la carne nel burro; unire il prosciutto tritato,  
 100 g. di latte  
 100 g. di prosciutto crudo salare e sopprire con il latte  
 75 g. di gherigli di noci bollente. abbassare la fiamma  
 50 g. di burro e lasciare a fuoco medio, coperto, per circa un'ora. Aggiungere le noci  
 1 cucchiaino di brodo sale, tritare e proseguire la cottura ancora per un'ora.  
 Passare al setaccio il fondo della cottura, rimetterlo in pentola con un cucchiaino di brodo e scaldarla. Tagliare la carne a fette e ricoprirla di sugo.

## SE ... A FARINI - IF ... IN FARINI

**Se l'albero si spoglia**  
**dobbiamo dire addio alla foglia.**

**Se i frutti ci dà il noce**  
**l'albero sembra una croce.**

**Se i cacciatori tornano a mani vuote**  
**cinghiali e lepri hanno messo le ruote.**  
**Se nascono gli esili chiodini**  
**stai pur certo che ci saranno anche i porcini.**

**Se le rondini se ne stanno andando,**  
**vuol dire che una nuova stagione sta arrivando.**

**Se dai tetti esce fumo**  
**si sente un acre profumo.**

**Se scoppiettano sulla stufa le caldarroste**  
**vuol dire che le giornate sono toste.**

**Se...se...se...**  
**tutto questo avverrà**  
**a Farini**  
**AUTUNNO sarà.**

# AUTUNNO A FERRIERE AUTUMN IN FERRIERE

## AUTUNNO BIZZARRO STRANGE AUTUMN

Le foglie del pioppo  
sospirano sommesse, quaggiù;  
son di tutti i colori:  
gialle, marroni, rosse e verdi.

Anch'esse vorrebbero volare e svanire lassù.

C'è freddo nel cielo e a piover continua:  
temporali e tuoni si senton dappertutto  
e ovunque andiamo succede di tutto.

Questo è l'autunno!  
Preparatevi ragazzi,  
con giacche e cappotti,  
a gelare e a congelare nel freddo autunnale.

## RIFLESSIONI SULL'AUTUNNO A GROPPALLO THOUGHTS ON AUTUMN... IN GROPPALLO

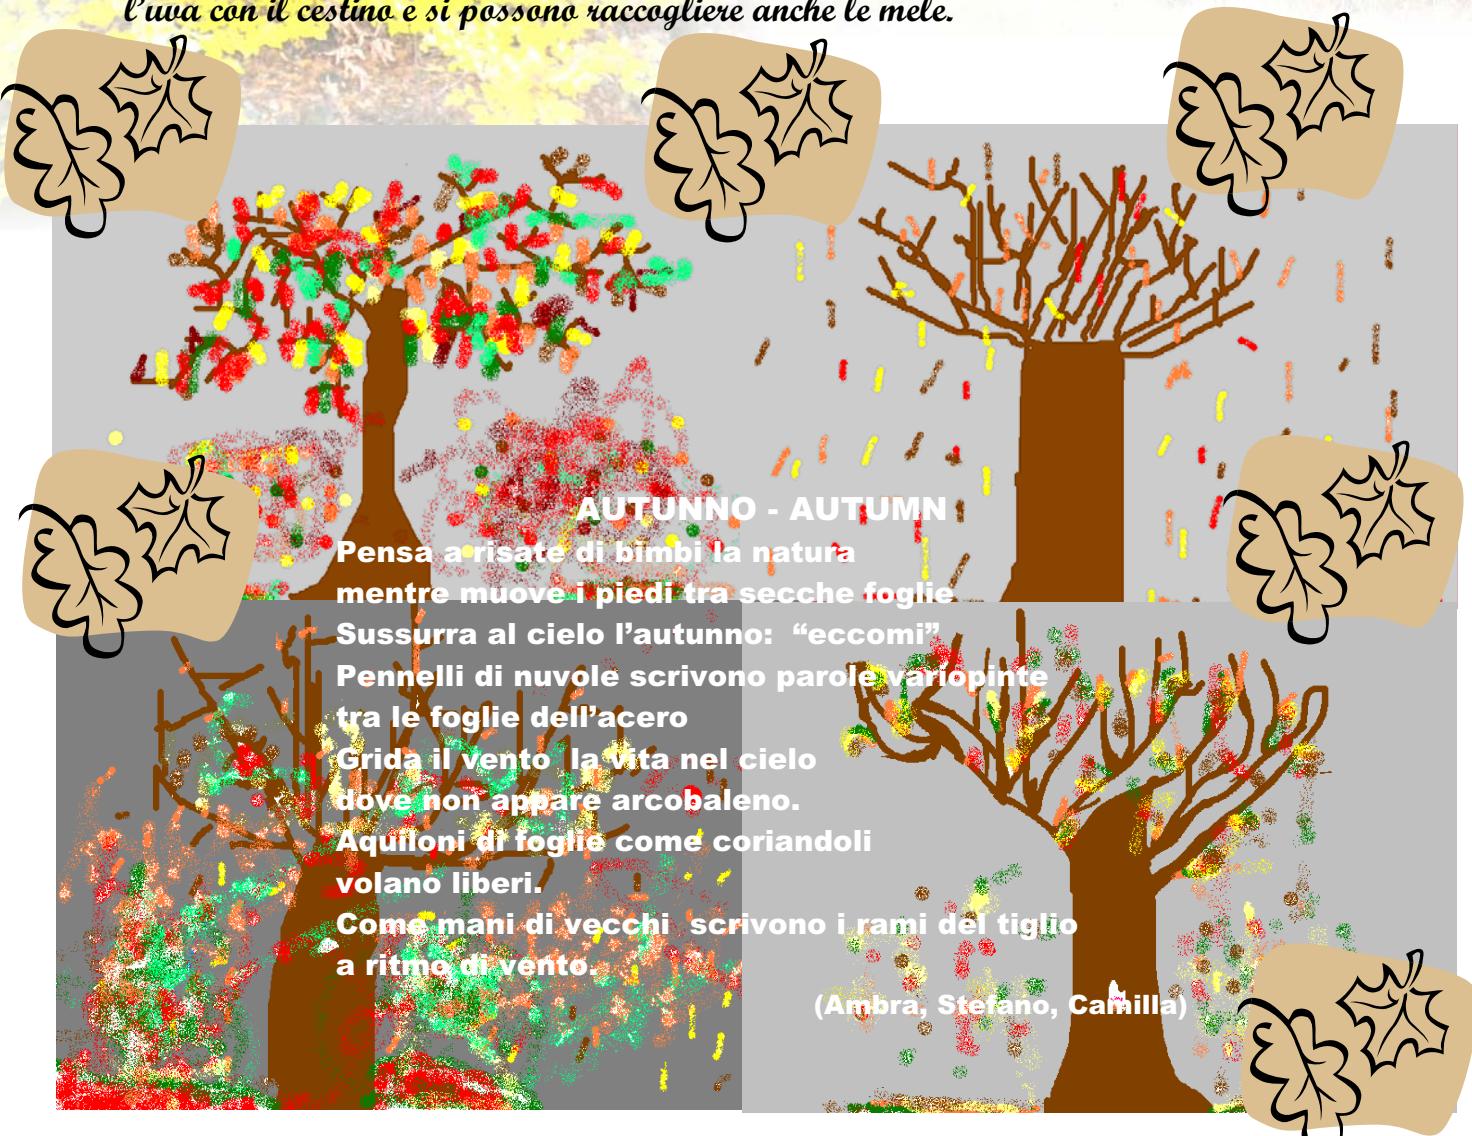

Nel bosco dell'autunno ci sono le foglie che cadono, ci sono le felci che stanno iniziando a seccare e alcune volte passano anche gli scoiattoli.

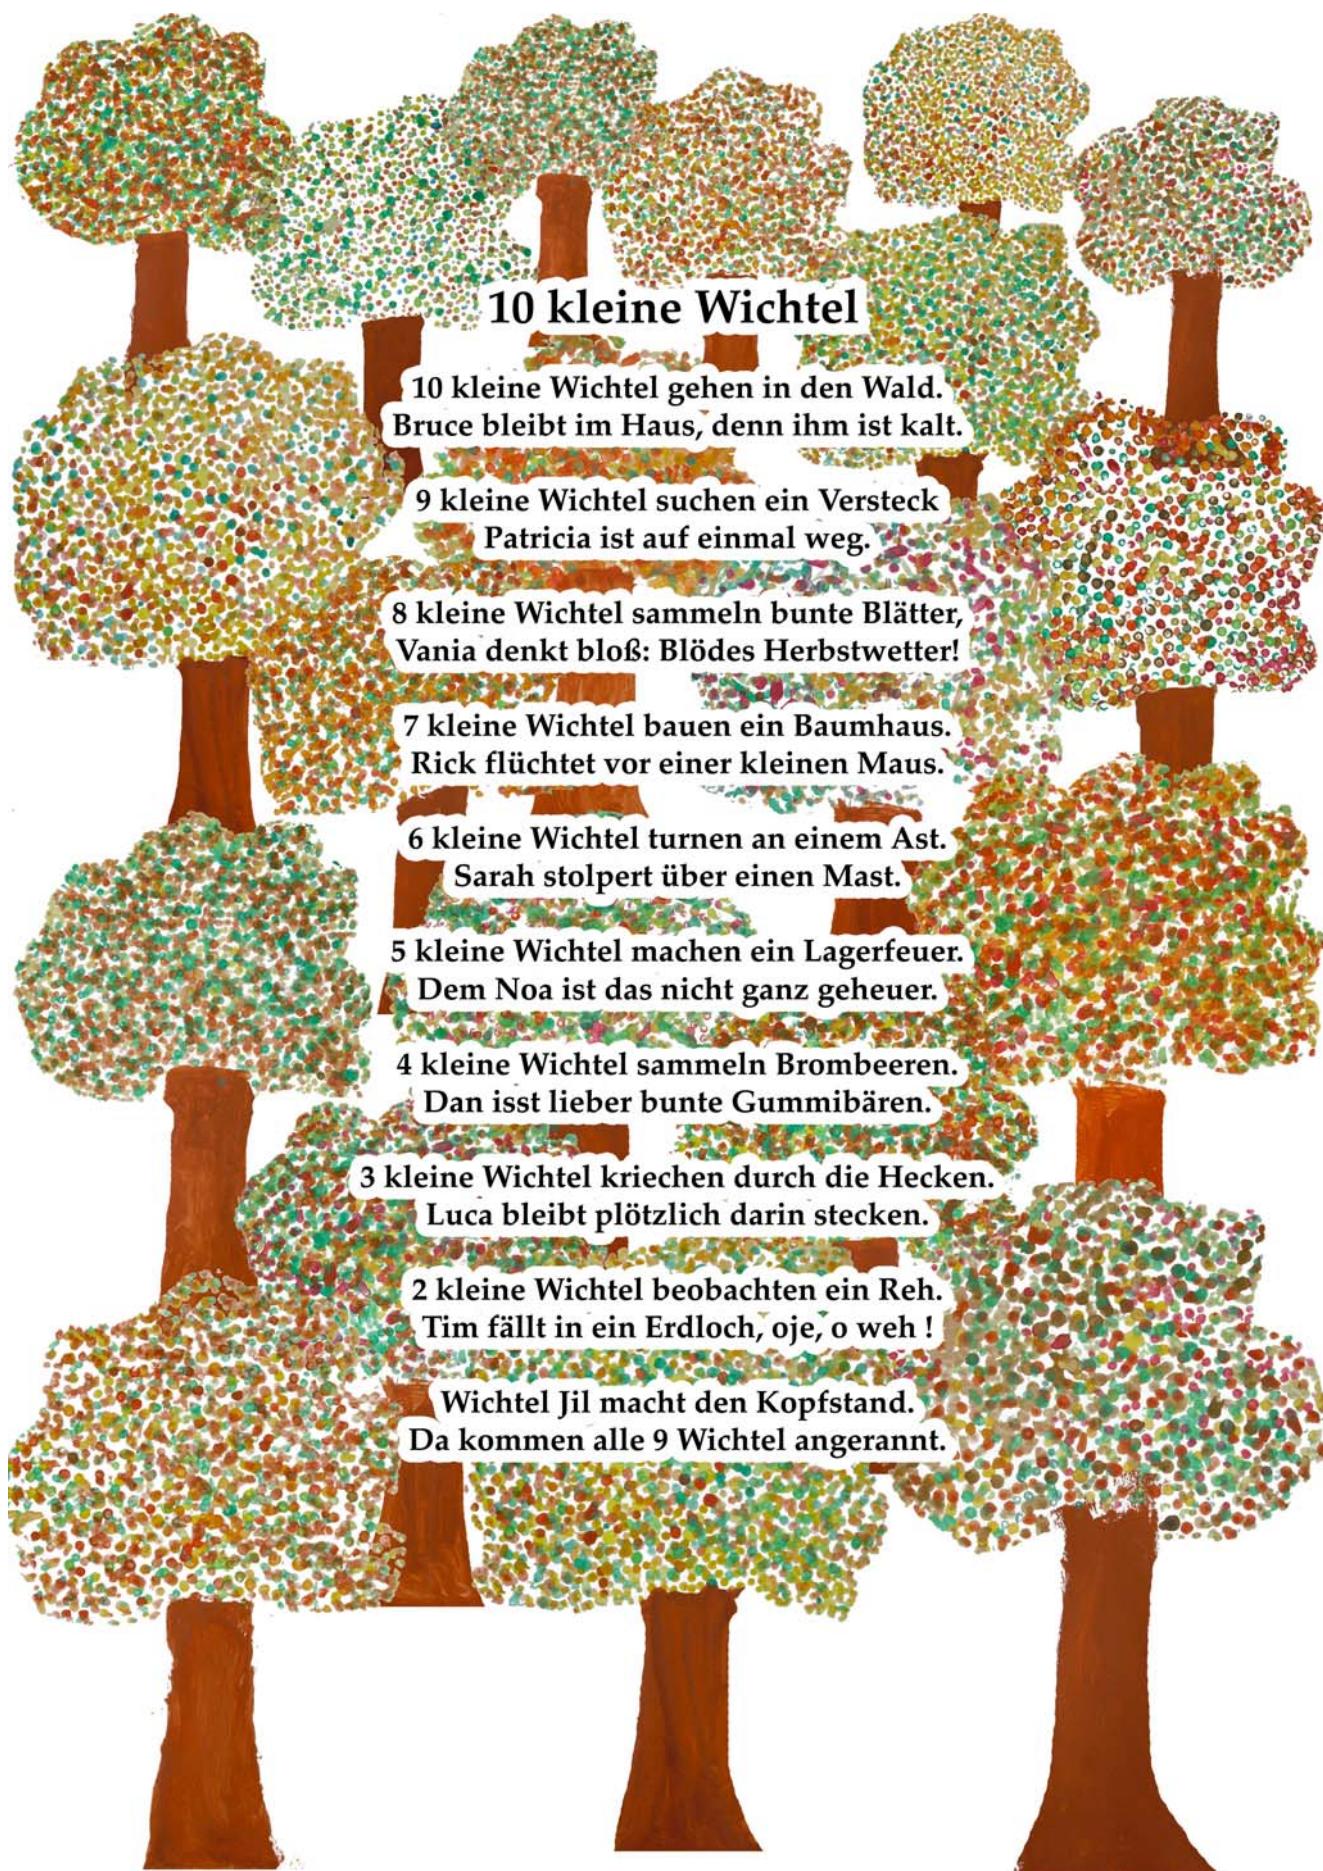

Ci sono gli alberi e i rami spogli, ci sono i funghi, le castagne, anche l'uva e molte foglie cadute; ci può essere anche la pioggia.

Nella stagione autunnale le foglie sono colorate, gialle, marroncine e rosse.

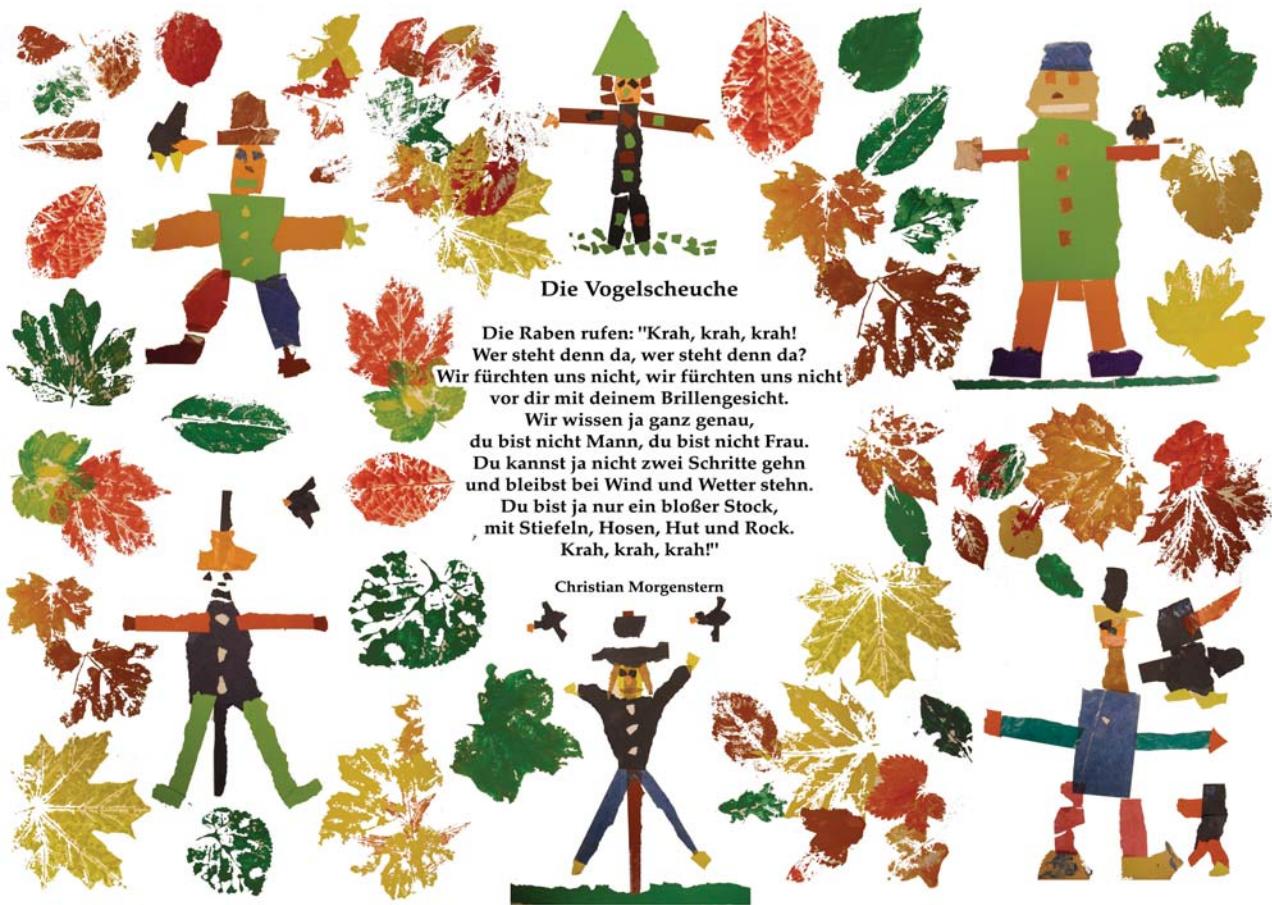

Inizia ad arrivare il freddo e ci avviciniamo sempre di più all'inverno, così gli alberi hanno chiuso i punti dove c'erano attaccati i piccioli delle foglie e gli animali vanno in letargo.

Alcune persone vanno nel bosco a fare delle passeggiate, a raccogliere funghi e l'uva con il cestino e si possono raccogliere anche le mele.

# Schoul Diddeléng

## Hogäns - Hoergäns - Huelgäns - Holgäns

Déi grouss Vigel fléien, soubal et Wanter – oder Fréijor – gëtt, an der Luucht uechter d'Ländchen.

Do spëtzt een dann awer d'Oueren, well hire Kreesch ass onverkennbar, nämlech „krò-krò“. Si gehéieren zu den Zuchvigel, esou datt si just duerchzéien. Et ass seelen, datt een deen iwwert ee Meter héije Vull raschte gesait. En Zuch Horgänsen erkennt een èmmer dorunnerten, datt sie am oppenen Dräieck fléien, èmmer den Eenter.

Am aale Lëtzebuergeschen huet eng Horgäns „e Kruunchert“ geheesch, „e Krukert“ oder „e Kruert“. Op Houdäitsch ass et „ein Kranich“, op franséisch ass et „la grue“, op englesch „a crane“, op Latäin „Grus grus“ an op spuemesch „grulla“.

## Mär bauen en Draach

### Wat mär dofir brauchen:

- 2 hëlze Stief (1x ca 60 cm, 1x ca 40 cm)
- 1 grouss Poubellestut
- Deko-Material (z.B. Molstëfter, Glitzer, Filz, Pailletten,...)
- Scotch
- Schéier
- Lineal
- Ficelle

### What you need:

- 2 wooden sticks ()
- 1 big piece of plastic (perhaps a bag for the dustbin)
- Material for decoration (Pens, glitter, ...)
- Tape
- Scissors
- Ruler
- 2 pieces of a string

### An elo gëtt gebastelt...

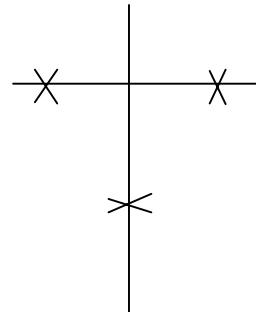

Fir d'éischt brauchs du déi 2 hëlze Stief. Dee méi kuerze lees de horizontal virun dech. Zeechen der d'Mëtt mat engem Stëft un.

Lo lees de dee méi laange Staf op deen eischten, sou datt et ausgesäit wéi ee Kräiz ( $!90^\circ$  Wënkel!) a pechs e mat Scotch fest.

Fixéier dann deng Ficelle mat Kriet (sou wéi op der Skizz). Fixéier eng zweet Ficelle ganz énnen fir de Schwanz vun dengem Draach.

Lee däi Kräiz dann op eng Poubellestut a pech et gutt mat Scotch un.

Verbann dann di 4 Ecker mateneen (mam Lineal) a schneit däin Draach aus.  
Vergiess net d'Kanten vum Draach mat Scotch  
zesummen ze pechen, fir datt di zwou  
Couchen vun der Tut net ausernee falen.

Lo kanns du däin Draach dekoréieren.

Voilà, schon ass däin Draach fäerdeg a kann dobausse getest ginn.

Vill Spass beim Bastelen!!!

# Schoul Diddeléng

## An der Drauwelies

### Mär ginn an d'Drauwelies

Mam « Naturmusée » vun der Stad Lëtzebuerg fuere mär op d'Musel, fir an der Drauwelies ze hëlfen. Zu Gréiwemaacher geet et biergop bei ee Wéngert.

### Mär plécken Drauwen

Vun zwou Mataarbechterinnen aus dem Musée kréie mär een Eemer an eng Heckeschéier. Mär musse vun uewe bis énnen duerch d'Reie goen an d'Drauwestäck eidel plécken. Déi ganz kleng Drauwe gi net gepléckt, well si sauer sinn. Mär sollen awer déi ugefaulten Drauwe vum Bueden asammelen. Si maachen de Wäin nämlech méi séiss.

### Hépp, an d'Drauwebidden

Mär schneiden d'Drauwe mat der Schéier of a leeën se an den Eemer. Soubal den Eemer voll ass, schéddde mär alles an eng grouss Bidden. De Wäibauer féiert déi geféllte Container da mam Trakter an d'Kellerei, wou aus eisen Drauwe Wäi geamaach gëtt.

### Mär pressen Drauwesaft

Nom Plécken félle mär mat e puer Drauwen eng kleng Press (Kelter) a leeën een décken Deckel uewendrop. Mat enger Dréivirrichtung an engem laange Gréff schrauwe mär den Deckel erof a pressen d'Drauwen zesummen. Ënne leeft de Saaft aus engem Lach an ee grousse Plastikbecher.

### D'Moschtgewicht

Eng vun de Fraen aus dem Musée schétt den Drauwesaft an eng Öchsle-Wo. D'Gewiicht, dat am Moscht schwëmmt, huet eng Skala, déi a Grad Öchsle agedeelt ass.

Wann d'Gewiicht héich schwëmmt, dann ass vill Zocker am Drauwesaft. Doduerch ass e schwéier a séiss. Mär moossen héich Grad Öchsle. Wa weineg Zocker am Saaft ass, da geet Gewiicht méi déif erof. De Moscht ass méi liicht awer och méi sauer. Mär moosse manner Grad Öchsle.

De Saaft vun eiser Drauf huet 78 Grad Öchsle. Dat ass net schlecht.

### Et geet neess heem

Et war flott. Mär hunn een interessante Mueren am Wéngert verbruert.

## Hierscht

# THE FOUR SEASONS – AUTUMN IN POLAND

## PATRON SAINT'S DAY

In October, traditionally, we celebrate Patron Saint's Day in our school. This year it was on 27th October and all attractions prepared on that day referred to the Middle Ages (queen Jadwiga Andegaweńska lived then). So, our school was visited by the Guild of Knights who presented medieval dances, outfits and arms.

ALL STUDENTS LISTEN TO THE KNIGHT  
WITH A GREAT INTEREST

27 października obchodziliśmy Dzień Patrona Szkoły. Z tej okazji odwiedziło nas Bractwo Rycerskie. Na początku odbyło się przedstawienie, w którym aktorzy walczyli, tańczyli i strzelali z łuku. Obejrzaliśmy średniowieczne stroje i rynsztunek. Następnie były zawody, które miały na celu ocalenie naszej patronki, m.in. rzucanie sakiewkami z pieniędzmi oraz konkurs wiedzy o Królowej Jadwidze. Później razem z chórem odśpiewaliśmy hymn szkoły. Na koniec mieliśmy zajęcia z Bractwem Rycerskim: walka na pagajach, strzelanie z łuku, oglądanie średniowiecznych strojów i rynsztunku. To święto różniło się od wszystkich innych dni patrona!

The ceremony of „knighting”

All students, instructed by the knights, had an opportunity to bow arrows, fight with clubs and put on the knight armours. There was also a medieval tournament, organised to win back the sculpture of the patron, stolen by „robbers”. Happily, everything ended well and the sculpture returned to its place opposite the front door of our school.

Redakcja *Ekspresika 15*

## NEW STUDENTS PLEDGED TO BE PERFECT

On 25th September 2010 a very nice ceremony took place in our school. It was organised especially for the youngest students (six and seven years old) who had started their learning three weeks earlier. After singing the national and the school anthems, all students promised to behave themselves and to have only good marks.

STUDENTS DURING THE CEREMONY

Then, the deputy head Mrs Ewa Boryczko (using a very big pencil) officially „knighted” the children. Finally, they were given commemorative diplomas to remember the ceremony for ever.

## The Scary Week

Everybody admires the „Halloween Creations”

The students' performance makes the ceremony more attractive

## WHITE TRIP IN LATE AUTUMN

The European and The e-Twinning Societies organised an autumn trip to The Saint Anna Mountain's Landscape Park on 30th November. The goal was to observe all changes characteristic of the late autumn's nature in a place rich in different kinds of trees and bushes.

In front of the monument covered with fresh snow

But the winter came very early this year and it was a real white trip. Instead of walking along the forest's paths, we visited the open-air theatre, the monument in the theatre, the wonderful basil and participated in a very interesting classes conducted by a geologist Mr Marek Zarankiewicz.

Outside the old basil and during the classes

30 listopada odbyła się wycieczka kółka europejskiego na Górę Świętej Anny. Obejrzaliśmy Pomnik Czynu Powstańczego, amfiteatr oraz przepiękny kościół z obrazem św. Anny – matki Maryi. Następnie geolog p. Marek Zarankiewicz przekazał nam mnóstwo informacji i ciekawostek o Górze Świętej Anny
