

From 28<sup>th</sup> to 30<sup>th</sup> April 2010 a partner visit took place in Opole, Poland. During the working session the colleagues from the schools in Estonia, France, Germany, Italy, Luxembourg and Poland evaluated our project's tasks which had been already realised and discussed the goals we would plan to realise in the future. Besides, all friends participated in the workshop „The mystery of a honey drop”, observed the students making „The 4 seasons' tree” during art classes and the students' show „The 4 seasons”. They also admired nice art works by the students of Opole schools – the results of different competitions our school had organised. Moreover, the representatives of the partner schools accompanied the students from the e-Twinning club and the reporters' society during their trip to The Museum of Opole Countryside and to a nice village Kamień Śląski. Thanks to the trip the partners were able to gather some information about the history and the tradition of our region – Opole Silesia.
